DR. MYERS' CALVANIC CHAIR.

Galvanism. Electro-Magnetism, and other forms of electricity are now exclusively employed in the best institutions of the world with the most flattering results. The Galvanic Chair is one of my own invention. And one of the best constructed Electro-Magnetic Apparatus in use, with every necessary appliance for the treatment of various diseases. The patient receives no unpleasant shock, but a pleasant, soothing and steady current, which invigorates the whole system throughout. The chair is so constructed that I can give Hot Air, Medicated or Vapor Baths, which cleanaes the skin and opens the pores, thereby relieving congestion and assisting nature to remove impurities from the blood. It has been said that cleanliness is next to Goldiness, said the pores of the skin must be kept open or sickness and early death are sure to follow. With my chair I can sweat the most delicate patients day after day, and give them strength from each application. I do away with all debilitated, oppressive sensations of heat and shock, rendering the feeling of the patient most delightful. I equalize the circulation and tone and strengthen the whole system, from the brain and spine, through all the nervous ramifications of the various vital organs. I do not debilitate my patients to promote a cure, but from the commencement invigorate them.

I have cured hundreds of cases supposed to be incurable, and with my apparatus have thrown many into eccasion to rejoice, and have caused the haggard, downcast face of the dysepotic to light up under the exhibitaring offects of my treatment. I have given many neuralgic sufferers occasion to rejoice, and have caused the haggard, downcast face of the dysepotic to light up under the exhibitarian offects of a vitalizing current of electricity sent down the pneumogastric nerve to the stomach, and I have caused many a rheumatic and paralytic to run and rejoice in the restoration of painful, contracted, stiff and withered limbs, and in all diseases I cause beneficial results which are wonderful. Nor do I make a hobby of any one mode of treatment. I use electricity or medicine, or both, as cases may require. I believe in proving all things and holding fast to that which is good. I am aware that it is a positive fact that the majority of diseases are caused by impure blood, and the only way to promote a cure is to remove the poison and build up the system by requiring the obstructed excretory organs to do their proper duty. I find the cause, remove it, and nature, assisted by medical remedies properly applied, will promote a cure without fail. I treat with success all diseases of the Throat, Lungs, Heart, Stomach, Liver, Head, Nerves, Eidneys, Bladder, Womb, Blood, affections of the Urinary Organs, Gravel, Pilos, Serofula, Rheumatism, Catarrh, Bronchitis, Dyspepsia, Diseases of the Eye and Ear, etc.

It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physicians in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter.
